

## Wildlife Act Review

### Submission Comment 321:

Contributor: Individual

#### Primary interests:

- Protection and conservation of wildlife and habitat
- Research relating to wildlife
- Offences and penalties relating to wildlife

#### Comment

Our policies (and lack thereof), lack of funding, and the lack of prosecution for crimes relating to wildlife, raises eyebrows across the international community, particularly among scientists and conservationists who I have worked with and who recognise the value of our native biota. I strongly urge the Victorian Government to step up and create policies and laws, and provide funding to conserve our natural environment and wildlife.
