

Karolina Reed
Submitter 125

Following my submission and my presentation on Wednesday the 16th of June.

After my presentation I received a few questions from the panel and I would highly appreciate it for you to accept my written reply to those questions.

In regards to the employment opportunities and the fact that there are few submissions from pro Kalbar, Fingerboards Project submissions, I would like to give you the following facts:

Kalbar Limited has received 800 expressions of interest through the Industry Capability Network (ICN).

Kalbar Limited has received 278 resumes, directly provided to Kalbar.

258 suppliers have directly emailed Kalbar with expression of interest.

393 workers and suppliers have registered their interest at field days and community information sessions.

Those facts show and prove that there is major interest in this project from suppliers, businesses and individuals.

Thank you for taking this statement in consideration.

Kindest regards

Karolina Reed
