

# 2019 Submission - Royal Commission into Victoria's Mental Health System

## Organisation Name

N/A

## Name

Ms Giselle Wilding

### **What are your suggestions to improve the Victorian community's understanding of mental illness and reduce stigma and discrimination?**

"As having a mental illness of a psychotic nature ( I absolutely do not or ever have had)is so discriminating that falsely diagnosing this is a person can destroy their life. [REDACTED] , [REDACTED] , made then [REDACTED] psychiatric registrar Dr [REDACTED] falsely section me in 2005 with the plan to force me on a CTO to destroy my intellect and stop and destroy my legal actions in the courts . As I remained calm at all times during this horrific false imprisonment this did not happen but I was given oral drugs that still destroyed my life. Dr [REDACTED] faked 100 pages of documents and was aided by nurse [REDACTED] now with [REDACTED] . I have spent years gathering evidence and been ignited by the system. No psychiatrist before or after could identify any disorder. I am now at a stage to demand criminal proceedings and will approach APHRA, Medical Board, police , Legal Services Commissioner with my irrefutable evidence and intend to make this as PUBLIC AS POSSIBLE are the horrific abuses in your system and your shocking follow up of my claims which seemed to consist of just asking Dr [REDACTED] about the matter. I remain extremely traumatised and there were many horrific consequences to these serious crimes ( I and insisting on aggravated kidnapping and conspiracy). I remain very traumatised in what potentially could have happened if Dr [REDACTED] possibly did not weaken and refused the demands of my psychopathic ex husband who no doubt wanted forced and permanent injections on a CTO. This twisted individual is still working in your system. Note I take NO PSYCHIATRIC DRUGS OR CAN A PSYCHIATRIST FIND A DISORDER. I have never given up getting the truth at massive effort and cost and I am sure most victims would never have the ability to do what I have done. With my current evidence I WILL NOW NEVER SHUT UP.( Should you doubt what I am saying about these men working in your broken system then why have they not sued me? I simple google search of [REDACTED] will reveal what he has done and he is protected by others in this system of horror )."

### **What is already working well and what can be done better to prevent mental illness and to support people to get early treatment and support?**

Listen to people and not be too quick to call them delusional

### **What is already working well and what can be done better to prevent suicide?**

Cannot speak for other but what your criminal system did to me sure triggered it.

### **What makes it hard for people to experience good mental health and what can be done to improve this? This may include how people find, access and experience mental health treatment and support and how services link with each other.**

Need easier access to psychiatrists and lower costs. Waiting time far too long and your public health doctors want to use horrific life destroying drugs like lollies.

**What are the drivers behind some communities in Victoria experiencing poorer mental health outcomes and what needs to be done to address this?**

Hopelessness

**What are the needs of family members and carers and what can be done better to support them?**

Education on mental health

**What can be done to attract, retain and better support the mental health workforce, including peer support workers?**

More staff so not overworked

**What are the opportunities in the Victorian community for people living with mental illness to improve their social and economic participation, and what needs to be done to realise these opportunities?**

Pretty limited if brains destroyed by anti psychotics

**Thinking about what Victorias mental health system should ideally look like, tell us what areas and reform ideas you would like the Royal Commission to prioritise for change?**

Looking for corruption. Believing it exists as it always has and mental health abuses go on

**What can be done now to prepare for changes to Victorias mental health system and support improvements to last?**

Investigate allegations

**Is there anything else you would like to share with the Royal Commission?**

Just my story.
