

Pop Up Shared Zones for Active Travel and Exercise Phase 2 Feedback

During this phase we revealed the proposed route that was designed in response to phase 1 feedback. The route is along Greaves Street South, Melanie Drive and Tesron Court. We also shared the results of phase 1 engagement, proposed traffic management information and artist impression designs.

Phase 2 feedback included;

- suggested enhancements for the pop up shared zones, including the provision for dog waste, and adjustments to signage.
- reconfirming support for the project, including the desire to see the colourful paths, and wanting this project in multiple locations across the municipality.
- Addressing of concerns including safety, rubbish, property access and increased popularity of the path.

All feedback has been responded to and we thank you for your contributions.
