

**1 CORNER JOHNSON AND BUCKINGHAM STREETS**  
SCALE 1:1000

**2 MURPHY STREET PARK**  
SCALE 1:1000

**SUB PRECINCT 3121F**

- Burnley Park is the major area of open space in this sub-precinct and for the wider Richmond area. Continue to implement recommendations from the recently completed Masterplan for the Park. Review the recommendation to provide a car park in Burnley Park due to the lack of public open space in this sub-precinct, and large amount of parking available along Yarra Boulevard.
- Investigate measures to improve pedestrian and cycle links from the Main Yarra Trail to Burnley Park and through to the residential area west of Burnley Park.
- Where possible, use indigenous species to complement remnant vegetation values in Burnley Park, railway easement and the Circus Site.
- Ryan Reserve provides for sporting use and is to be retained for this purpose. Its location on Swan Street makes it less desirable for use as an informal recreational reserve.

**OVERALL RECOMMENDATIONS EAST RICHMOND**

- Citizens Park is an important Neighbourhood park. This Park needs a Conservation Plan and Landscape Masterplan to be prepared in consultation with the community to resolve safety and design issues to broaden its appeal and use for the local residents of Richmond.
- Future residential development is anticipated in the precinct and the additional population will place additional demand on the limited open space and facilities within them. Sub-precincts 3121C, D and E in East Richmond will require additional open space, and sub-precinct F will require additional facilities in existing open space.
- Improve links to open space network and the Yarra River via streetscape improvements and additional Small Local parks that create linked network of open space.

**SUB PRECINCT 3121C**

- Prepare a Conservation Plan and Landscape Masterplan for Citizens Park as described in overall recommendations.
- The northern section of this sub-precinct lacks any open space within reasonable walking distance of residents. Investigate future provision of Small Local open space including consideration of the opportunity for street closure at corner of Buckingham and Johnston Streets. Refer to plan and Detail No. 1.
- East-west and north-south links between open space are to be improved through streetscape works, implemented in accordance with the Yarra Street Planting Precinct Masterplans.
- South of Highett Street the existing road closure at Murphy Street is to be expanded to create a more useable Small Local open space. Investigate potential for future development in this area of the sub-precinct to contribute to the expansion and upgrade as this reserve.

**SUB PRECINCT 3121D**

- The two Small Local parks are well used and are to be retained. Dame Nellie Melba Park is to be retained as a passive, garden style reserve without play facilities. Cairns Reserve, which is within walking distance of Dame Nellie Melba Park, is to retain the playground and open grassed area for games. Safety review of the playground at Cairns Reserve is required.
- Improve pedestrian connections to Burnley Park and the Yarra River via streetscape improvements. Refer to plan.
- Investigate provision of additional Small Local open space to meet anticipated future residents open space needs.

**SUB PRECINCT 3121E**

- In future development along the Yarra River, achieve improved outcomes for open space including increased public access paths from existing urban areas through to the Yarra River trail, and an adequate reserve width along the River that strengthens the environmental values along the waterway corridor.
- In future development, ensure adequate setback achieves local open space that provides for some local recreation needs including seating adjoining the Main Yarra Trail and linear reserves.
- Investigate measures to improve access and use of O'Connell Reserve as the population in this sub-precinct continues to increase.
- Continue to maintain Annettes Place as a Local open space reserve adjoining the Yarra River linear reserve.

**DRAWING KEY**

	POTENTIAL FUTURE PUBLIC OPEN SPACE		OPEN SPACE OUTSIDE PRECINCT
	EXISTING PUBLIC OPEN SPACE		OFF ROAD PEDESTRIAN CYCLE LINK
	FORMAL SPORTING USE		EXISTING PEDESTRIAN FOOTPATH LINK
	ADJOINING OPEN SPACE (NOT IN YCC)		FUTURE OFF ROAD PEDESTRIAN CYCLE LINK
	COMMERCIAL AREA		IMPROVE ON STREET PEDESTRIAN AND CYCLE LINKS
	EDUCATION USE		EXISTING BICYCLE LANE
	CITY BOUNDARY		POTENTIAL FUTURE PEDESTRIAN LINKS THROUGH EXISTING DEVELOPED AREAS
	SUB PRECINCT BOUNDARY		PEDESTRIAN MOVEMENT
			VEHICLE MOVEMENT
			PUBLIC TRANSPORT LINK
