

2022 Term 2 Primary Co-curricular Clubs Program (Years 1 - 6)

Club	Years	Time	Venue	Cost	Led by	Additional information
Monday 7 Sessions						
CrossFit	5 & 6	7:30am - 8:15am	Fitness Facility	\$119	Cross fit Play	Put simply, our workouts are fun, challenging and will make you feel and move better. You will make new friends and be encouraged to push in ways you couldn't on your own. Then leave the gym feeling inspired to take on the world. Play is for those who want variety and creativity in their day to day training, while also understanding the importance of consistency. There is a false impression that you have to be fit to do CrossFit. The beauty of this sport is that you can modify each workout to suit your current ability and skill set. This results in improved performance - just be patient and trust the process!
3D Game Design and Animation Course	4 - 6	3:30pm - 4:30pm	Year 5 Classroom	\$210	PIEX	Students will use Bolt scripting in the Unity workspace to create a project that will test their problem solving, computational and design thinking skills through game design and animation. This course will give students an insight into how software development is conducted and a great way for them to work on a project within a team to create innovative and creative ideas.
Karate	1 - 6	3:30pm - 4:30pm	Fitness Facility	\$105	Ino and Leigh from Jin Sei Ryu Karate	Learn and practice the discipline of martial arts, keep fit and have fun with Jin Sei Ryu Karate. For beginners and above.
Minecraft - Junior	1 - 3	3:30pm - 4:30pm	K404	\$105	Jordan Lewis	Children will work on a project in teams that will culminate week to week. Children will build and work in both creative and survival modes.
Little Drama 1	1 & 2	3:30pm - 4:30pm	Level 4 Multi-purpose space	\$105	Isabella Pinson	Come and learn the foundations of Drama in this supportive and fun club which will explore storytelling, acting and creative movement.
Skateboarding	1 - 6	3:30pm - 4:30pm	Level 5 Kelly St Rooftop	\$175	Skate Now	Skateboarding catered to different levels and experiences. The program is accessible to a wide range of children, and can be modified for the really young or less sporty. Their teaching methods are graded for easy and safe progression. All equipment and protective gear provided, as well as custom skate obstacles designed for youngsters and beginners to ride in safety.

Tuesday

8 Sessions
