

**TRAFFIC IMPACT:**

- Boyce St will be set up as a one-way system. This will prevent the need for having stop / go traffic or traffic lights on the street which will reduce traffic queues.
- The remaining streets will require stop / go or traffic lights. This will be reduced to keep both lanes open whenever possible.
- At night and over the weekend the roads will be opened back up to one lane in each direction.
- On street parking will be affected during these times.
- Access will be maintained to all properties throughout the project.

**GENERAL INFORMATION:**

- Please contact Simcox on 03 578 5930 if you have any specific access requirements that we need to consider e.g. Nurse / Doctor visits or planned works on your property.
- There will be occasional water shutdowns during this project, those that are affected will be notified by letter at least 1 week prior to the proposed shut down.
- There will be increased noise, dust and vibration levels.
- Works will have no planned impact on the current power and telecommunications network. However, the network is still fragile so please be prepared if there is an unexpected service cut off.
- Your rubbish and recycling will not change please put them in the normal spot at the normal time.
- Safety is our number one priority. Safety is your responsibility too. Stay clear and stay alert - keep children and pets at a safe distance from the work site.
- Our standard work hours are Monday to Friday between the hours of 7.00am to 5.30pm.

Bi-weekly updates for the project will be posted online at the following web address:  
<https://simcox.co.nz/projects/ongoing/renwick-ac-water-replacements-west/updates>

Yours sincerely,

**Simcox Construction**
