Child and Adolescent Health Service

My visit to ED

1

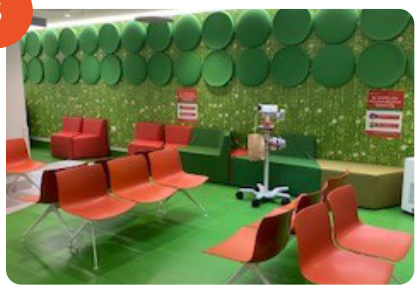

Sometimes I get sick or hurt. When this happens, I might need to visit the Emergency Department.

2

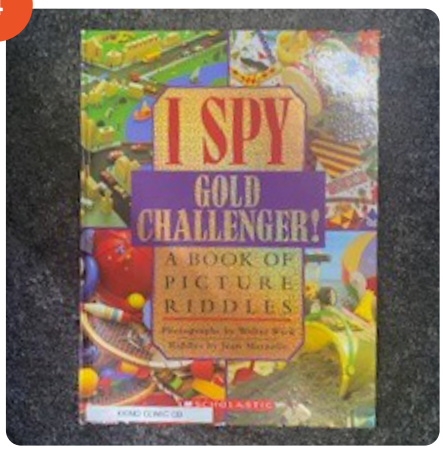

I will meet doctors and nurses who will help me to feel better.

3

The Emergency Department can be a busy and noisy place. There will be lots of other children who are also sick or hurt. I might need to wait my turn.

4

Waiting can be tricky. I can talk with my parent/carer about things I can do while I wait.

5

While I am waiting, the nurse will take some observations like my temperature. It's important I stay still.

6

The nurse will also check my blood pressure and heart rate.

7

I might move into a single room in the Emergency Department. My parent/ carer can stay with me the whole time.
