Nelson™ Coconut Chair

THE SHAPE OF COMFORT

The contours of George Nelson's Coconut chair invite you to surround yourself in comfort. In his 1956 design statement for the Coconut chair, Nelson said it "was developed to give lounge seating comfort together with great freedom of movement." A chair designed to look like a section of coconut shell wasn't a stretch for someone who said, "Total design is nothing more or less than a process of relating everything to everything." The Coconut chair offers shapely comfort anyone can relate to.
