Biboni™ Sofa

Knoll seeks out and collaborates with the most creative and innovative architects and designers. That approach continues with the Biboni Sofa by Sharon Johnston and Mark Lee of architecture firm Johnston Marklee. Capturing the spirit of their work, Biboni relates to the human body in the same manner as their architecture, shaping space into volumes, voids, and curves.

Designer	Johnston Marklee
Benefits	<ul style="list-style-type: none">• The anthropomorphic Biboni Sofa welcomes the human form; it's both soft and supportive, holding the body in a relaxed yet upright position• Every part of Biboni was designed to have a relationship with the space around it, resulting in a sofa that's especially striking when it can be seen in the round—floating away from the perimeter• Supported by discreet inset feet, the Biboni Sofa appears to hover off the floor, adding lightness to an otherwise substantial object
