CONNECTION
LIMITLESS

THE NEW STANDARD

One solution for a world of devices

Over 70% of the laptop market worldwide is charged via USB-C*. In 2022, European legislation is leading the charge for all small and medium sized devices, declaring USB-C as the only charging port by 2024. This decision has the power to make products more sustainable, reduces electronic waste, and makes our lives easier.

How? Power supplies and adaptors use a wide range of materials such as plastic, copper and zinc to manufacture**. A simplified solution, where everyone can connect and charge without traditional power supplies, indicates a global shift to a more circular and sustainable model.

INTRODUCING 25

High output, small footprint

Featuring high output charging and fast data transfer, 25 integrates into varying surface types & thicknesses and is designed to sit flush in a range of metal finish faceplates. Power and data are delivered simply through single action connectivity of USB-A, USB-C, HDMI and DATA ports. 25 is a modular system that is configurable with two, four and eight port options.

SIMPLIFIED DESIGN

Universal IEC connectors allow users to connect to 25 anywhere in the world. Designed for ease of maintenance and serviceability, with a sleek under mount housing.

HIGH OUTPUT

Internationally certified, high output power supply delivers fast charging. Available in single as standard, or upgradeable to dual and quad power supply options for the most power intensive devices.

REFINED MATERIALITY

Designed with flush fit faceplates produced in four quality, metal finishes; Brass, Bronze, Stainless Steel and Black Steel.

[TOP TO BOTTOM]
FINISHES: BR5 / BZ9 / SS8 / BS7
PORTS: HDMI / USB-A / DATA / USB-C

PRODUCT
25 - Power and Data System, *3 Sizes*

FEATURES
Single action connectivity
Produced in high quality materials and finishes
Fast charging for high-output devices
Designed for ease of maintenance and serviceability

MATERIALS
Faceplate - Stainless Steel
Mechanism Grid - Stainless Steel
Undercarriage - Stainless Steel

NO. OF PORTS / CODE
2 Port / 2P
4 Port / 4P
8 Port / 8P

PORT - CODE
USB-C - C
USB-A - A
HDMI - H
DATA - D

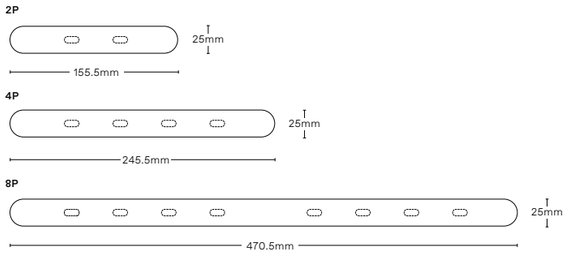
FINISH - CODE
Brass - BR5
Bronze - BZ9
Steel - SS8
Black Steel - BS7

POWER OPTIONS / CODE
Double Power Supply [MAX. 170W] / DPS
Double Power Supply [MAX. 340W] / QPS

ORDER GUIDE
1. Select No. of Ports
2. Select Port Type *[Multiple selection required depending on port no. selected in previous step]*
3. Select Faceplate Finish
4. Select Optional Power Upgrade

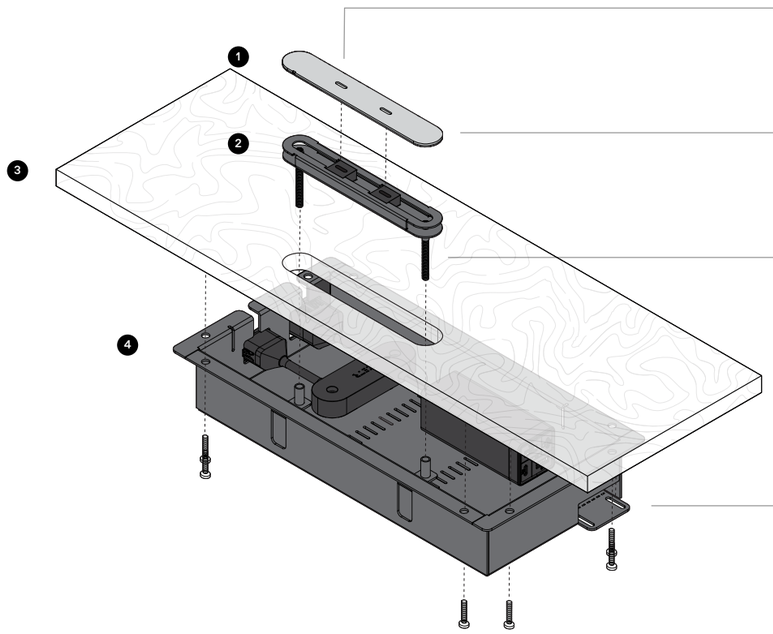
i.e.

25 - 8P - CCCAHDDD - BR5 / QPS
SERIES NO. · NO. OF PORTS · PORT TYPE · FACEPLATE FINISH · OPTIONAL POWER



SYSTEM

1. FACEPLATE
2. MECHANISM GRID
3. SUBSTRATE
4. UNDERCARRIAGE



Configurable ports to suit the program of a space. Available configurations include:
USB-C, USB-A, HDMI, DATA.

Finish faceplate with magnetic fastening. Constructed in stainless steel. Available in 4 finishes.

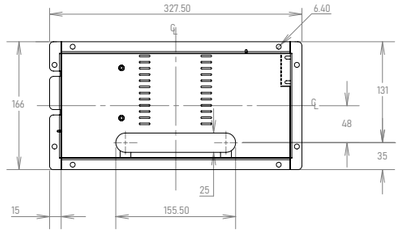
Height and tilt adjustable port grid for a seamless flush finish available in 2, 4 or 8 port options.

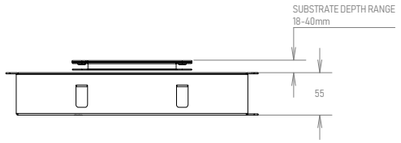
Ability to mount within varying substrate thicknesses between 18-40mm.

Compact under mount electrical enclosure.

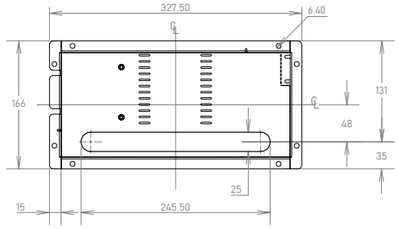
DIMENSIONS

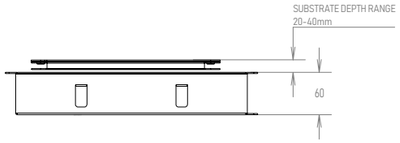
2 PORT *[25-2P]*



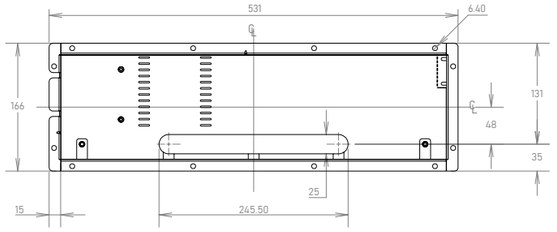


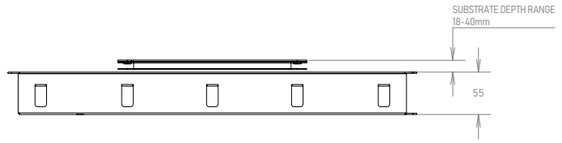
4 PORT COMPACT *[25-4PC]*



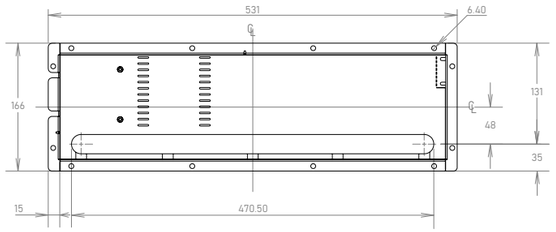


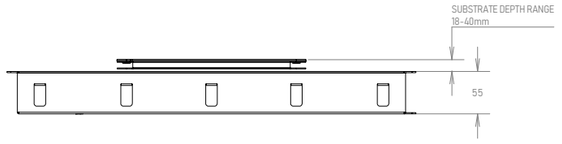
4 PORT *[25-4P]*





8 PORT *[25-8P]*





WHO WE ARE

Design for a connected world.

ZETR is changing the way we connect with the world around us, through innovative architectural products.

Since 2017, ZETR has designed and manufactured award-winning architectural product solutions for residential and commercial sectors. We leverage design thinking to create sustainable solutions for both local and international markets, designed in-house by our Australian research and development team.

We seek to push the limits of possibility through thoughtful design and innovation to better our lives.
