

Airy Coffee Table

“The idea behind Airy was to create a side table that did not scream but still was not afraid to speak. The result is a table series that masters the fine balance between being light and airy, and at the same time having plenty of personality and individuality. Due to this combination Airy gets a multi-functionality that makes the side tables suitable for every kind of interior.”

Description	The Airy Coffee Table is designed with a light and airy expression through its clean lines and the table top almost floating above its thin steel frame. Available in three sizes alongside a half-side version, the Airy Coffee Table can serve a range of functions in a multitude of spaces with its playful yet quiet personality complementing any setting.
Material	<p>The tabletop is made from plywood with either a nanolaminate or clear lacquered oak veneer finish. The frame is made from 8mm powder-coated solid steel.</p> <p>Powder-Coated Steel: Steel is an alloy of iron with carbon. Powder-coated steel has a subtle, textured expression and elegant feel while adding durability to the design and making it more corrosion-resistant. Powder-coated steel is also highly chip-resistant.</p> <p>Nanolaminate: Nanolaminate is a fully dense, ultra-fine-grained solid with a high concentration of interface defects. Nanolaminate is an innovative material with unique features such as low light reflexivity, an extremely matt surface, anti-fingerprints, and anti-bacterial features. In contrast, the nanolaminate surface is resistant to scratches, dry heat, and acid solvents.</p> <p>Lacquered Oak Veneer: Plywood with oak veneer and clear water-based lacquer on top; edges have no surface coating, and the bottom has contra paper.</p>
Cleaning & Care	Clean the table with a damp cloth. If necessary, only use a mild detergent or washing-up liquid that is not concentrated. Always wipe with a dry cloth afterward. To minimize the risk of stains and marks, liquid, grease, etc., should be removed immediately. For nanolaminate, treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.
