

# Folded Trolley

"The Folded Trolley emerged from a dialogue with Muuto on extending the potential of the Folded Shelves into new typologies. Previously, I stumbled upon the idea of a cabinet using the same folded-form language, which naturally evolved into a trolley. By bringing these together, the design quickly took shape. Like the shelves, it plays with hiding and showing objects through integrated pockets, creating a solution that is both functional and engaging across home and work settings."

— Johan Van Hengel

| Description           | <p>The Folded Trolley translates the visual language of folded paper into durable steel, giving the design a contemporary and functional character. Defined by its clean folds and subtle detailing, the trolley offers a practical storage solution for both residential and professional settings. A display pocket at the back offers space for books or objects, complemented by a drawer in the closed version, which can be fitted with a lock. Designed for flexibility, the trolley comes with both glides and wheels for easy movement and placement.</p>                          |
| Material              | <p>The product is made from a bent sheet of steel with either a matte or high-gloss powder-coated finish. The components are laser cut and formed.</p> <p>The product is supplied with both castors and adjustable glides in black plastic. The castors are made from 100% post-industrial recycled plastic. All stated height measurements are based on the use of castors.</p> <p>Versions with a drawer include a steel drawer with soft-close hinges. Versions with a lock are fitted with a black anodized lock with keys.</p> <p>Glides, castors, and drawer can be disassembled.</p> |
| Cleaning & Care       | <p>The surface should be cleaned with a cloth dampened with water. If needed, a mild detergent or dish soap may be used. Concentrated or abrasive cleaning agents should be avoided, as they may damage the finish. The surface should be dried with a clean cloth after cleaning. Any liquids, grease, or residues should be removed immediately to reduce the risk of stains or marks. Care should be taken when handling hard objects near the surface, as impact may cause scratches or damage to the powder-coated finish.</p>                                                         |

# Folded Trolley
