

Etch Tea Light Holder Brass

A digitally manufactured candle holder etched in brass. Made by employing an industrial process used to produce electronic products.

|                       |  |        |
|-----------------------|--|--------|
| Process               | Made from sheet metal. The pattern is photo etched, acid dissolves the exposed parts leaving behind the unexposed metal creating the pattern. The metal is then lacquered. |        |
| Year of Design        | 2010 / 2012  |        |
| Material              | Brass, Stainless Steel, Aluminium  |        |
