

# 2001 side tables

**bd**

A contemporary design from Ramón Úbeda & Otto Canalda. It is polished and striking while remaining stable, functional, and consistently appealing.

Designed by Ramón Úbeda & Otto Canalda for BD, the pair transformed the concept of a side table into a contemporary piece that supports a room with a circular top and metallic body. Made from ultra-clear glass, the tempered, sleek table top rests on a mirrored Pyrex tube base. The cylinder allows the form to float. The mirrored finish seamlessly integrates with its surroundings, allowing the form to float comfortably in its environment. The table is available in two sizes and can hold up to 8 kg.

# 2001 side table

## FINISHES

Top in tempered ultra-clear glass with a mirrored finish. Pyrex tube leg base with a mirrored finish.

## DESIGNERS

RAMÓN ÚBEDA &amp; OTTO CANALDA
