Muecke Coffee and Side Tables

To architect and sculptor Jonathan Muecke, material is elemental, repetition is clarity, and logic is freedom. In designing furniture for Knoll, Muecke applies the principles of his art practice to create Coffee and Side Tables that feel both raw and intentional with their primitive, rigorous, inviting forms.

Benefits

- The design celebrates all aspects of wood, even the end grain, which is hidden in traditional mortise joints
- Muecke explores the stabilizing effects of repetition with a unique joinery system that's used across the collection
- The Muecke Wood Collection, which also includes a Dining Table, Armchair, Side Chair, Lounge Chair, and Ottoman, is a cohesive collection for collaborative settings in the workplace

Key Features

1. **Cylindrical Dowels**
Unlike tables where the end grain is hidden, the Muecke Tables feature cylindrical dowels that put the end grain on view
2. **Natural Materials**
Offered in a choice of oak, walnut, or ebonized ash, the tables complement a variety of aesthetics
3. **Distinct Joinery**
Rounded wood pieces pass each other on nearby planes and connect where they meet by a floating tenon, resulting in distinct joinery that's repeated across the collection
