

# MR Lounge Collection

**Designed by**  
Ludwig Mies van der Rohe

## MR Lounge Collection

The MR Collection represents some of the first tubular steel furniture designs of the early 20th century implementing technology, materials, and design in the Bauhaus tradition. The cantilever principle is gracefully exhibited in the beautiful curves and structure which not only provides a striking visual but also supports a comfortable sit. With its timeless silhouette and perfect proportions, Ludwig Mies van der Rohe created a collection of iconic status.
