SERVICE EXTENDED: Call Bellingen Shire Taxis for a special delivery service

Transport is just the start

WITH COVID-19 restrictions forcing businesses to look at new ways of operating to meet the needs of their clients, it's the clever ideas that are getting noticed in this "new normal".

Greg and Susan McLeod, owners of Bellingen Shire Taxis, have implemented a Taxi Tucker & Bevy service.

To assist people in isolation, customers can order and have delivered their favourite meals, drinks and other store products. Cost is just the price of a normal taxi fare.

"Taxi services are deemed an essential service and, with the social distancing regime in place, keeping our local businesses connected with our mutual customers has never been so important," Ms McLeod said.

"Together we can support each other and keep our local business operating."

As well as the food and beverage delivery serive, Bellingen Shire Taxis is open for business, transporting people to medical and business appointments daily around the shire and into Coffs Harbour.

If you need to get to the airport, they also have you covered.

Bellingen Shire Taxis operates services to and from Coffs Harbour, Sydney and Brisbane airports.

Keeping their local drivers in work and customer needs met is the driving force of this local business.

To learn more about the available services call Susan 0411 141 679 or email susan.mcleod@bigpond.com
