Thandie B Israel

Business owner | Director of Erastus EL Roi Advisory

The concept of Erastus EL Roi started 14 years ago as of 2022. The vision was to provide clients with services that go beyond accounting, legal, tax, or business advisory and grow to be the firm that advises advisors around the world. Through out the years my focus has been to establish a firm with moral people, tested and proven life principles with global sights and the only firm that serves those inviting us to the table. The initial name of this concept had global in it, but as life proves actions speak louder, so we decided to be a global firm by actions and the compliments will come from those we serve. That is a good balance.

My next season

Now that I have achieved my goal to create Erastus EL Roi, the next step in this season is to grow the firm and have locations/presence in strategic areas because our clients are coming from diverse backgrounds and cultures around the world.

ABOUT US

Affiliation

Visit our website to see just a few of the affiliations we have. They range from partners in business ventures to accreditation bodies, community and churches, mental health support organisations, educational institutions etc.

How EER Advisory Started

In 2012, EER was officially founded and registered by Thandie while attending university in Queensland, Australia. I remember going to the dean of the university where I did accounting and pitching my idea to him. He offered me an office on campus and made resources available to me for 1 full year and the outcome were beyond amazing. I knew then that when I was ready to fledge this idea It would have good success, so fast forward 2022, here we are. Welcome to the revived Erastus El Roi, serving you beyond “what you can think or imagine”.

Purpose and Values

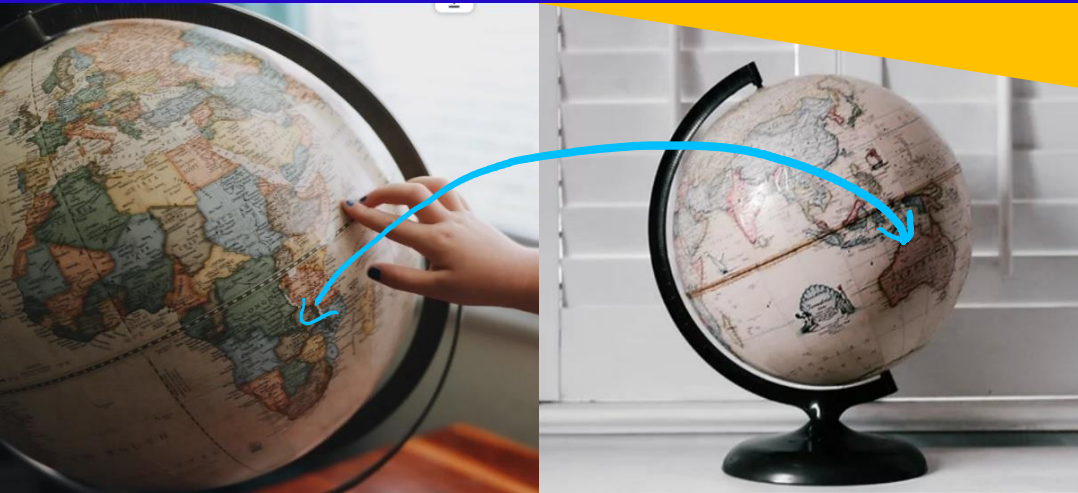

We are not your traditional business, and our business model is beyond old school. Yet core to the fundamentals of accounting, tax and legal principles is our unique approach of “influence by invitation and not coercion”. That is our purpose.

Our values also known as El Roi Principles are: Accountability; Relationship; Leadership; Morals; Faith; Influence; Character; Stewardship.

Quote: “Morals & ethics are very different. One can be ethical and not moral, yet one who is moral is ethical” -> *by Thandie Israel*
