

### Customer Testimonial

I'd like to thank a new business in town. For years I had a spare junk room. I kept the door shut. There were beds, two mattresses, a wardrobe, table. TV, BBQ, lounge suites, book case, stool etc, etc – hard waste. Not sale able. Skip Bins on Wheels removed all of it in just over an hour, for a reasonable cost. All the hype about 'hard rubbish' removal is no joke. It's a real problem. So grateful
