PROVIDING YOUR STRUCTURAL/METAL FABRICATION SOLUTIONS

Established in 1987, our company moved to its current McLaughlin Street Sheet Metal Workshop in 1990 and completed our adjoining Bush Crescent Structural Steel Workshop in 2009, progressing to become one of the largest metal manufacturers in Central Queensland today. Delivering high quality, safe, customised and innovative solutions, we service ADF, LNG, Mining, Construction, and Marine Industries, as well as Local and State Government Sectors. Both workshops are extensively equipped with modern machinery and we maintain capability for onsite construction and installation work to your convenience.

Our staff qualifications, training programs, and excellent retention rate ensure your project continuity to the highest standards.

SERVICES INCLUDE

- Custom Design, CAD Cam Drafting and Estimating, Advanced Steel 2018
- Metal Fabrication, Construction and Structural Engineering
- On Site Installations
- Plasma Cutting
- Folding
- Marine Fabrication and Repairs
- Welding
 - Pulse MiG Welding
 - Carbon Arc Gouging
 - Flux-Cored Welding

LOWER YOUR RISK AND SAVE WITH QUALITY OUTCOMES

With over 30 qualified staff members (in metal fabrication and/or boilermaking) and six apprentices, we can meet tight delivery time frames at short notice. Our use of 6S and lean manufacturing processes enhance safety and efficiency and contribute to cost savings and timely delivery of your project.

PRODUCTS ENCOMPASS

- Project Work to Requirements
- Structural Steel fabrication
- General fabrication
- Walkways
- Handrails / Balustrades
- Screens / Fencing
- Mining Equipment
- Defence Equipment
- Rigging and Steel Erection

CERTIFICATES/ACCREDITATIONS

Building Services Authority BSA# 718408
Master Builders Association MBA# 13096
Commerce Queensland Member # 165201
Australian Stainless Steel Development Association (ASSDA) Accreditation.
All staff hold General Construction Safety Induction Cards, while relevant personnel are Trade Qualified; Certified to Work at Heights, Operate Forklifts and other Specific Machinery.

MACHINE CAPABILITIES

High definition ART Plasma Cutter
Cuts up to 50mm Black Iron with a 6m x 2.4m Bed

Epic Industries Guillotine
2400 x 3mm cutting capacity

Kleen Guillotine
4000mm x 10mm cutting capacity

Imperial Pressbrake
450 tonne x 8m long bed

Epic Industries Panbrake
2400 x 3mm folding capacity

2 x Scotchman 65 tonne Punch and Sheers
Punch 27mm diameter hole in 18mm thick steel plate. Cuts up to 150 x 25mm flat bar

Parkanson Bandsaw
Cutting 300mm x 600mm sections

Progress 4E Large Drill Press
Up to 75mm diameter hole

Unishell Belt Linisher
250mm wide belt linisher

Pipe Notcher
Up to 60mm diameter pipe

12 x MiG Welders 400 BOC
Aluminium EWM Pulse Mig 355
Carbon Arc Gougers

3 x Magna Drills
3 x Hilti Hammer Drills
up to 50mm diameter

Euromac Digibender
Bends up to 100 x 25mm flat bar

Mac Drop Saw
150 x 150mm capacity

90 KVA Cummins Generator
4KVA Generator/Compressor
22 KVA Generator

RECENT PROJECTS

■ Austrak Rockhampton:	Modify 68 x bed legs on bed 4 to cater for 66 new moulds as per drawings.
■ Australian Defence Forces:	Manufacture of Aluminium Bridge.
■ Barney Point Project:	Manufacture and install rails and balustrades.
