WHO ARE POWER CONCEPTS

Power Concepts is a reputable and locally owned electrical business committed to providing high quality services and exceptional customer service. With over 30 years of industry experience, we have a proven track record of excellence in the electrical industry, and we have been recognised with multiple awards. For more than 15 years, we have been serving the Northern Territory and have built a team of diverse electrical professionals. Our team is capable of completing a wide range of electrical services, including Project Management and multi-trade services, ensuring that our clients receive a comprehensive and seamless solution. We specialise in commercial, industrial, government, Defense, and council sectors and we are experienced in construction, maintenance, and compliance works. We are experienced to complete all works both remotely and across the NT, QLD, and NSW if required.

At Power Concepts, safety is our top priority, and we operate under a comprehensive safety and compliance system. We are committed to accommodating specific site, works, and client procedures and work systems to ensure that our staff operates in a safe and efficient working environment at all times.

MEET SOME OF THE TEAM

DIRECTOR
MATHEW TIMMS

Mathew joined the electrical trade in 1996 and has had the opportunity to gain experience in just about all aspects of the electrical industry. He is the current contractor representative of the NT electrical licensing Contractors Board and has represented various national industry bodies as a state representative. Mathew has had the privilege of working for the local electrical distributor and worked in all corners of the NT.

He formed and opened Power Concepts in 2008 with a business partner who left the business in 2016 to pursue other avenues.

During his career he has been apart of all aspects of the electrical trade, developing a passion for training and increasing the skills of incoming apprentices.

Power Concepts was created to offer solution driven services for all clients by providing a wide range of electrical services completed to the highest standard. Power Concepts is a multi-award winning respected electrical contracting company with a focus on customer satisfaction and safety.

WHY CHOOSE US

- Experienced and Qualified Electricians
- High-Quality Workmanship
- Affordable and Competitive Pricing
- Safety-Focused
- Excellent Customer Service

At Power Concepts, we pride ourselves on being a top-rated electrical company that delivers exceptional service to our clients. With our experienced and qualified electricians, we guarantee that your electrical needs will be handled with professionalism and expertise. Our team is composed of highly trained individuals who have undergone rigorous training and certifications to ensure that we provide our clients with the best possible service.

Our commitment to delivering high-quality workmanship is at the heart of everything we do. We understand that electrical issues can be complex and require a keen attention to detail. That is why we strive to deliver the highest quality work possible on every project we undertake. Our team utilises premium products and equipment to ensure that our work is durable, reliable, and of the highest industry standards.

At Power Concepts, we believe that quality does not have to come with a hefty price tag. We are dedicated to providing affordable and competitive pricing to our clients without compromising on the quality of our work. We understand that every client has unique requirements, and we work closely with them to deliver tailored solutions that align with their budgets and expectations.

We are committed to safety and adhere to stringent safety protocols to ensure that our clients and our team remain safe at all times. Our safety-focused approach includes utilising the latest safety equipment, performing regular safety inspections, and maintaining a comprehensive safety management system.

Our excellent customer service is a cornerstone of our business. We understand the importance of building long-term relationships with our clients and we strive to deliver outstanding service that exceeds their expectations. From the initial consultation to project completion, we provide open communication, prompt responses, and transparent pricing, ensuring that our clients are always informed and in control.

At Power Concepts, we are passionate about delivering electrical solutions that are of the highest quality, affordable, and safe. Our commitment to excellence and customer satisfaction is what sets us apart from other electrical companies, and we are proud to be a trusted partner for all your electrical needs.

We Look forward to working with you in the future
