

2025 Rosewood Rally

Bulletin 1 - 12 November 2025

1. **Vehicle Logbooks** - following a recent Audit of our Logbook Database, we have identified that several entries in our Database are missing details. Whilst all of the Logbooks have been verified on WOLF, not all of the missing information is collected by WOLF. We therefore are asking all competitors to bring their Logbooks to Check-In so that we can collect the missing information for input into the Database.
2. **Expanded Service Park Area** - Due to the increased number of competitors, we have been able to secure an additional area for servicing. The area on the Eastern (Left Hand) Side of the driveway into the club is able to be used for Servicing. The area allowed is down to the Cricket Nets. However, there is to be NO SERVICING on the Cricket Oval under any circumstances. Refer to the map at the bottom of this bulletin for the full area available for servicing. All crews must still enter and exit the Service Park via the In/Out Control prior to undertaking service works on cars.
3. **General Notice** - Essential Energy have notified the club that there will be a town wide scheduled power outage on Sunday 16th November from 9am. This will affect Rosewood, Tumberumba, Batlow and Tumut. This will affect Food Outlets as well as Petrol Stations. Please make alternate arrangements if needed. This will also affect the Club facilities including toilets and showers at the Golf Club.
