Event Directors General Overview

The Rosewood Rally is again a partnership between Wagga Car Club and AMSAG – representing classic club style event.

We are pleased to bring you around 166 kms of all daylight rallying this year, which is great value for money at only \$680- entry. We have 4 stages that will be run twice. Stages will all be different from previous years – so no point bringing your old notes!

Some of the roads have been recently graded and many are in excellent condition. Until the June long weekend the whole region has been very dry, we are now receiving good and much need rain.

We have again been able to secure support from Southern Cross Forests to use some of their roads adjacent to State Forest Areas.

The rally format is same as previous years with the Rosewood Sports Club as the start, finish and service park. Camping fees and two dinner tickets are included in the entry fees. Additional dinner tickets can be purchased online.

The Club will be open on Friday evening and Saturday evening. The club will be running Saturday morning and Saturday lunch BBQ. Friday night meal may be available more details will be posted on Facebook close to the event.

Please support the club if you can, it is a very important part of the local community run by volunteers.

There is no scrutineering at the event. Please make your own arrangements for scrutineering and don't leave it until the last minute to organise a scrutineer.

Please note there is no fuel (of any kind) in Rosewood, and if travelling at night there are a lot of kangaroos in the area.

The rally should be a great club rally on great roads that are challenging for both the driver and navigator.

Look forward to seeing you there

Wade Ryan
Director.

3.3 OH&S ADVICE for Competitors & Service Crews

3.3.1 AMSAG wish to remind you that WorkCover NSW legislation deems a Rally Service Park to be a NSW Workplace. Therefore, all of the workplace and OH&S practices that we observe every day in our regular working environment, must also be observed and practiced at all times within the Service Park. All personnel are asked to assess the risks associated with any practice that they are involved with, and take action to minimise the potential injury to themselves and any other personnel. As the Entrant, you have a Duty of Care for the health and safety of those people who might be affected by the activities of your team whilst at the rally. These people may include the members of your competing crew, service crew, spectators and the general public. You may be held liable for the damage to property or injury to personnel should suitable assessment and risk minimisation practices not be followed.

3.3.2 Some examples of risks might be:

- The use of electrical power. High voltage cords and appliances should have a current safety Inspection tag, and be used with a tagged safety switch.
- When using jacks or jack stands, use equipment that is suitable for the job, and ensure that the vehicle is at all times properly secured. Getting underneath a vehicle that is only supported by a jack is serious risk, and should never be attempted
- Re-fuelling may be conducted within your own work environment, however, a suitable and approved fire extinguisher should be nearby while refuelling. It is recommended that this extinguisher be manned during the re-fuelling operation. A notice of the danger of the re-fuelling.
- Activity - from mobile phones, heat, cigarettes and other ignition sources – should be erected to warn all personnel not involved with the activity to stay well away.
- To minimise the risk of damage to the environment, a liquid proof ground cover must be beneath the car during all servicing and re-fuelling operations. Be prepared to mop up any liquid spills immediately to avoid contamination of the ground, and report any such contamination to the attending official or Rally Control without delay.
- Personal Safety Clothing should be worn by all personnel to minimise risk or injury. This may involve clothing with long sleeves, fire proof materials, gloves, ear protection and/or safety Goggles/Glasses.
- Due to the hazards that can be associated to smoking, including the ignition of flammable liquids and gases within the service park, AMSAG strongly discourage smoking by all persons within the service park during the entire event.
- You should consider the risk in all situations, and ensure that you manage all of your activities at the event and be prepared to demonstrate that you have considered these risks and put the appropriate safety measures in place.

4 AMSAG ACCIDENT PROCEDURE

4.1.1 YOUR ATTENTION IS DRAWN TO THE AMSAG ACCIDENT PROCEDURE CONTAINED WITHIN THE 2023 SERIES DOCUMENTS FOR THE PIPE KING SOUTHERN CROSS RALLY SERIES.

4.1.2 The “**AMSAG ACCIDENT PROCEDURE**” will be provided at the rear (before the back cover) of each event Road Book.

It will contain a form for the First Car on Scene to complete and hand to the Second Car on Scene if Rally Control has NOT been contacted.

5 VEHICLE INFORMATION

5.1 ELIGIBILITY

5.1.1 Vehicles must comply with AMSAG Inc. Eligibility & Safety Regulations as published on the AMSAG website.
