Event Directors General Overview

It's the Bago rally time again 2026.

Firstly, let me welcome and thank each and every-one of you for entering the 2026 Bago Rally.

Saturday, 28 March, Bago is the first round of the AMSAG Southern Cross rally series for 2026. The Hastings Sporting Car Club and AMSAG Incorporated are once again bringing you an event with a difference, only ONE repeat stage in the whole event, Two Night stages and one being 33klms competitive.

This Year Bago 2026 once again, be sponsored by Kuhmo Tyres Australia. I would like to take this opportunity to thank David Basher and his team from Marketing for all their help & assistance in providing outfits and promo gear for all our officials. To all our local sponsors thanks again for all your support, And a very special thankyou to all the officials without them we can't have this rally. Without the dedicated officials Rallies would mostly be memories and you and I would be just watching motorsport on TV.

This year is 60 years of the Southern Cross In this Bago Forest area so this year we have honoured some of our locals who have competed over the years, naming stages after past and some still present Legends.

Last year, after 3 false starts due to weather, losing roads and making it impossible to run the same event twice, Scott keys and Shane Schmitzer have backed up to create a bigger and unique event and added a couple of night stages.

Both Shane and Scott devoted untold hours putting together the best event possible, some of the roads are a mix of all three events from last year plus some that no-one would have rallied on since the 1980's. So longer and technical stages are what you're getting this year.

Same service park as prior years, Hastings Valley Motor Cycle Club complex have been working on their grounds and have some new amenities, which are a welcome addition. The Start, Service (x2) and the finish will be at the same location. Food Will be available throughout the day.

This year we will be using RallySafe to keep an eye on you all being safe. We know exactly where competitors are at all times, so a reminder, you MUST have a Rallysafe fitting kit IN YOUR CAR at Scrutineering.

To everyone involved in this event, I personally would like to say thank you for your efforts in making this event happen and wish each and every one of you a safe and happy Bago Rally.

Remember Motorsport is dangerous and you're the one with the steering wheel and the accelerator to finish first, but first one Must finish and remember they're \$18 trophies! Heroes end up in hospitals listen to your navigator and slow On the cautions

Thanks once again to everyone and I'll see you all back at the after party

Yours in Motorsport

Peter Leicht

3.3 OH&S ADVICE for Competitors & Service Crews

3.3.1 AMSAG wish to remind you that WorkCover NSW legislation deems a Rally Service Park to be a NSW Workplace. Therefore, all of the workplace and OH&S practices that we observe every day in our regular working environment, must also be observed and practiced at all times within the Service Park. All personnel are asked to assess the risks associated with any practice that they are involved with, and take action to minimise the potential injury to themselves and any other personnel. As the Entrant, you have a Duty of Care for the health and safety of those people who might be affected by the activities of your team whilst at the rally. These people may include the members of your competing crew, service crew, spectators and the general public. You may be held liable for the damage to property or injury to personnel should suitable assessment and risk minimisation practices not be followed.

3.3.2 Some examples of risks might be:

- The use of electrical power. High voltage cords and appliances should have a current safety Inspection tag, and be used with a tagged safety switch.
- When using jacks or jack stands, use equipment that is suitable for the job, and ensure that the vehicle is at all times properly secured. Getting underneath a vehicle that is only supported by a jack is serious risk, and should never be attempted
- Re-fuelling may be conducted within your own work environment, however, a suitable and approved fire extinguisher should be nearby while refuelling. It is recommended that this extinguisher be manned during the re-fuelling operation. A notice of the danger of the re-fuelling.
- Activity - from mobile phones, heat, cigarettes and other ignition sources – should be erected to warn all personnel not involved with the activity to stay well away.
- To minimise the risk of damage to the environment, a liquid proof ground cover must be beneath the car during all servicing and re-fuelling operations. Be prepared to mop up any liquid spills immediately to avoid contamination of the ground, and report any such contamination to the attending official or Rally Control without delay.
- Personal Safety Clothing should be worn by all personnel to minimise risk or injury. This may involve clothing with long sleeves, fire proof materials, gloves, ear protection and/or safety Goggles/Glasses.
- Due to the hazards that can be associated to smoking, including the ignition of flammable liquids and gases within the service park, AMSAG strongly discourage smoking by all persons within the service park during the entire event.
- You should consider the risk in all situations, and ensure that you manage all of your activities at the event and be prepared to demonstrate that you have considered these risks and put the appropriate safety measures in place.

4 AMSAG ACCIDENT PROCEDURE

4.1.1 YOUR ATTENTION IS DRAWN TO THE AMSAG ACCIDENT PROCEDURE CONTAINED WITHIN THE 2023 SERIES DOCUMENTS FOR THE PIPE KING SOUTHERN CROSS RALLY SERIES.

4.1.2 The “**AMSAG ACCIDENT PROCEDURE**” will be provided at the rear (before the back cover) of each event Road Book.

It will contain a form for the First Car on Scene to complete and hand to the Second Car on Scene if Rally Control has NOT been contacted.
