

Licence validation

License Validation Overview

The **WOLF platform** enhances competitor certification by introducing a **mandatory licence validation process**. All competitors entered in an event must confirm that their **licences are current and free of suspensions** since their initial entry submission.

How It Works:

- **24-48 hours before the event start date**, each competitor will receive an **SMS with a validation link**.
- Competitors must confirm that their **licenses remain valid and current** at the time of the event.
- **Until validation is completed, your entry progress will temporarily drop from 100%.**

Important:

Failure to complete the verification process **may result in event officials prohibiting you from commencing the event.**

If you experience any issues with verification, please contact the **dedicated WOLF onsite representative at the event** as soon as possible to resolve the matter.
