Buyer How-to Guide

How can I register as a buyer on Gavelhouse Plus?

gavelhouse.com has three portals, Gavelhouse Plus, gavelhouse.com Thoroughbred and gavelhouse.com Standardbred. Each of these require individual logins.

Unlike regular gavelhouse.com auctions, registering as a buyer on Gavelhouse Plus has an extra step whereby the NZB Finance team will undertake credit checks before giving bidding approval.

If you are planning on bidding, registering sooner rather than later is encouraged to allow the NZB Finance team to undertake the required checks in time for you to bid. When registering you must provide the name and phone numbers of two credit references before you are granted bidding approval.

- Firstly, [register your username](#), (this is the identity you will be buying under and it will show on the site).
- You will then receive an email verification to ensure that your correct email address has been entered. Click on the verification button and then Login to Gavelhouse Plus.
- To complete your profile and submit your bidding application click on your username in the top right corner and click on 'Settings'.
- To gain bidding approval you must enter all of the details required on the form including providing two credit references with contact numbers. Once complete, click 'Submit' and this will be sent to the NZB Finance team to review and approve.
- Once approved you will receive an email notifying you of this along with the payment terms of your account with NZB. Please be patient while the NZB team work through these applications and note that you should register to bid well before the close of the auction.

What happens when an auction closes?

The final countdown will commence starting with Lot 1. Note, once Lot 1 finishes, the countdown for Lot 2 begins.

What is auto-extend?

If a bid is placed in the final **30 seconds**, the auction will auto-extend for an additional 30 seconds to allow for further bidding. This will happen as many times as necessary until no further bids are placed on that Lot before moving on to take final bids on the next Lot.

What is an opening bid?

A minimum opening bid of **\$500** is required for horses offered for sale without a reserve. Should an unreserved horse that is listed fail to receive a bid, then the offering will be passed in.

How do I bid?

Once your account is approved, you will be able to bid by simply clicking on the purple **'PLACE BID'** button on the Lots page, make sure you refresh your page to ensure the next minimum bid value is correct if you place a second bid (if you are not logged in or registered you will not have this option, there is also no **'PLACE BID'** button on the Lots you are a vendor of).

- **To ensure your next minimum bid is correct refresh your page from the browser found at the top of the page or type in the amount.**

What is an auto-bid?

An auto-bid is an amount up to which you allow the system to bid automatically on your behalf. The system will only raise your bid when a counter bid has been placed. As the holder of the maximum bid, each bid placed will be recorded as your new highest bid until your maximum has been outbid.

When an auto-bid limit is less than the reserve price, the system will record the maximum bid entered.

If you enter the same amount as another members' maximum, the first member to place the bid will be the winning bidder at that amount.

Bidding increments are set as follows:

Price	Minimum Bid
Minimum opening bid	\$500
\$500 - \$4,999	\$100
\$5,000 - \$9,999	\$250
\$10,000 - \$19,999	\$500
\$20,000 - \$49,999	\$1,000
\$50,000 +	\$2,500

How can I contact vendors?

Bloodstock inspections for the 2021 South Island Sale on Gavelhouse Plus will consist of parades to be scheduled by NZB personnel on an RSVP basis. Buyers are strongly encouraged to do as much research as possible about the Lots they are interested in before bidding.

It is expected that vendors supply extensive photos and video footage to give prospective buyers the best possible information about each lot on offer.

Vendors can be contacted via the Gavelhouse Plus messaging system when you are logged in and contacted by phone with the details on the right hand side of the listing pages.

Establishing an online connection:

- Gavelhouse Plus cannot identify loss of online connection or browser issues at the user's end.
- Even a slight loss of internet connection that may not be noticeable can interrupt the user's browser when following the sale in real-time.
- We recommend setting up an auto-bid, we believe this is the best way to ensure your bids are placed.
- Google Chrome or Safari are the recommended internet browsers.
- Gavelhouse Plus staff are able assist in actively supporting both buyers and vendors during the sale, if you need a hand with registration or bidding, we are available via phone or email during our online auction to help.

What will happen after the Sale?

When you successfully purchase a horse in NZB auctions hosted on Gavelhouse Plus, you will receive shortly after the horse is knocked down to you notifying you of this with a button directing you to the Acknowledgement of Purchase page. On this page you must notify NZB of your purchase requirements around Karaka Million entry, insurance, scoping etc.

Due to the variable cost of scoping horses at different farms, this must be arranged by the purchaser and paid for directly with the vet rather than NZB invoicing this service out as they do at Karaka-based auctions. NZB have an approved list of veterinarians that can complete these examinations for you and you must notify them of your intention by ticking the applicable area on the AOP form. The examination must be done within three days of the close of the auction.

When the AOP form is complete, the gavelhouse.com team will exchange the contact details of and notify both the buyer and seller that the horse is able to be picked up.
