VETERINARY REPORT

Re: ONLYFORYOU - BETTORS DELIGHT 2020- 1-year-old, brown, Standardbred colt.

The aforementioned horse underwent left hock arthroscopic surgery on 30th September 2021 at Waikato Equine Veterinary Centre. See attached surgeons report.

There were no complications and recovery was normal post surgery.

On 17th January 2022 the horse was attended to at Breckon Farm following an incident on the horse walker. There was a skin/flesh wound injury to the right hind leg, this was cleaned sutured, stapled and bandaged.

The horse was reexamined on 25th January 2022 and I can confirm that the injury site is healing well.

The horse has a good prognosis for a future athletic career.
