Everything You Call Home

 Total Floor 215m²

 Section 584m²

Spanning approximately 215sqm, the home features four bedrooms and a layout designed to provide added flexibility for family living.

The concept plan separates the main living spaces and bedrooms while incorporating an additional self-contained living zone within the home.

The main open-plan kitchen, dining and living area creates a generous central space for everyday life, with direct access outdoors. The additional living zone includes its own kitchen and living space, bedroom and bathroom, providing greater flexibility for extended or multi-generational family living.

Across the home are four bedrooms, three bathrooms and four toilets, along with a double garage to complete the practical layout.
