 Total Floor 213m²

This contemporary urban-style home offers the bonus of extra income or extended living.

With 213 sqm of efficient living, this design pairs a three-bedroom family home with a separate one-bedroom income. Clean lines, simple forms, and sharp detailing give both dwellings strong street appeal. Each has open-plan living, its own garage with laundry, and well-designed spaces for practical living. It's a clever solution for compact sites, offering flexibility, affordability, and extra income potential without compromising on style.
