Takapuna Plan

 Total Floor 226m²

This contemporary 226sqm home combines elegant design with light-filled, open spaces.

A raked ceiling adds light and space, with easy flow between the kitchen, dining, and alfresco areas. Four bedrooms, including a master with ensuite, are complemented by a family bathroom. A separate lounge and study nook offer flexibility for family living, while a double garage adds everyday convenience. Like all our designs, this plan can be tailored to suit your lifestyle and needs. From shifting walls to reworking spaces, we'll help you create your place.
