Hawke's Bay Show Home

With a 281sqm footprint, this home offers a spacious and well-considered layout designed for modern family living.

This 281sqm home centres around an open-plan kitchen, dining, and living area, where raked ceilings and skylights bring in natural light and create a sense of space. Sliding doors connect to a covered outdoor area, supporting easy indoor-outdoor living and making the most of the elevated Mission Hills setting.

A separate lounge offers a quieter retreat, with a coffered ceiling and layered lighting adding depth and character. Three bedrooms include a private master suite with ensuite and walk-in wardrobe, while a double garage, separate laundry, and practical storage complete the home.
