

## WORKS NOTIFICATION

### OVINGHAM LEVEL CROSSING REMOVAL PROJECT

#### Torrens Road night works and temporary road closure

The Public Transport Projects Alliance (PTP Alliance) has removed the rail level crossing on Torrens Road, Ovingham to improve travel times, connectivity, and safety for all road and rail users.

As part of the finishing works associated with the Ovingham Level Crossing Removal Project, stormwater works on Torrens Road, near Napier Street and Chief Street, will occur from **Sunday, 16 July to Friday, 21 July 2023, between 7pm and 6am, each night (weather permitting).**

##### *What to expect*

The work will include re-laying stormwater drainage from Napier Street to the existing connections in Torrens Road.

In addition, works to install an underground fire hydrant point and raise two sewer pit lids, will also be undertaken along Torrens Road, between Coglein Street and Wattle Street, on Monday, 17 July 2023, between 8pm and 11pm.

##### *Traffic changes*

To safely undertake these works, Torrens Road (citybound), between Wattle Street and Chief Street, will be closed between 7pm and 5am, each night.

**Traffic detours will be provided via South Road, Port Road and Park Terrace. Access for local traffic will be via Coglein Street and Fifth Street.**

Please take extra care when workers are on site. Observe lane restrictions, speed limits, and traffic controllers when travelling through the areas of works. VMS boards will be used to advise changes to traffic conditions.

Some noise disturbance can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. You may also notice some light spill from mobile lighting towers.

Access to local business and residential properties will be maintained throughout the works, with advance notice provided if there is a need to temporarily restrict driveway access. Please continue to support local businesses.

##### *Pedestrian and cyclist access changes*

Some temporary pedestrian and cyclist detours will be in place around the works site and pedestrians and cyclists are advised to follow onsite directional signage.
