

Landscaping

The Golden Grove Park'n'Ride Project provides an opportunity to enhance the existing amenity of the area with the provision of new landscaping. Plant species will be carefully selected to make sure they are suitable for the surrounding area.

The landscaping for the project includes:

- more than 30 trees, including 6 different species;
- over 2300 ground covers and grasses, including 10 different species; and
- over 170 shrubs, of 11 different species.

Landscaping works will not commence until later in the project to ensure the plants aren't damaged during construction works.

Landscaping Palette:

Trees

Trees will be planted at a semi-matured stage at an average height of 3 metres. Trees in the below images are shown at maturity of 15-20 years.

Corymbia
citriodora
'Scentuous'

Dwarf Lemon
Scented Gum

Mature height:
4-7m

Eucalyptus
leucoxydon

SA Blue Gum

Mature
height: 8-15m

Eucalyptus
torquata

Coral Gum

Mature
height: 10-
15m

Fraxinus
pennsylvanica
'Urbanite'

Urbanite Ash

Mature
height: 10-
12m

Hymenosporum
flavum

Native
Frangipani

Mature height:
10-12m

Zelkova Serrata

Japanese Elm

Mature height:
10-12m

GOLDEN GROVE PARK 'N' RIDE

Shrubs

Shrubs will be planted as 140mm – 300mm diameter pots. Shrubs in the images below are shown at maturity of 3-5 years.

Alyogyne
hakeifolia
'Melissa Anne'
Native Hibiscus

Alyogyne
'White Angel'
Native Hibiscus
cultivar
