OVINGHAM LEVEL CROSSING REMOVAL PROJECT

Ovingham Railway Station Upgrade

The PTP Alliance is delivering an upgrade of the Ovingham Railway Station, as part of the Ovingham Level Crossing Removal Project.

What is being delivered?

The Ovingham Railway Station Upgrade will improve the user experience and station access. It will include:

- new shelters, seating and bins;
- improved fencing, platforms and access paths;
- improved communication equipment and lighting;
- new Closed-Circuit Television (CCTV); and
- landscaping and new on-street carpark along Devonport Terrace.

Please see enclosed Station Design map.

Timing of works

Station works commenced in February 2022. The majority of works are being undertaken Monday to Saturday, 6am to 6pm.

Some night works and Sunday works are also required. This is to facilitate the continued operation of the Australian Rail Track Corporation rail services.

The station upgrade is expected to be complete in late 2022.

Traffic changes

To safely facilitate these works, speed and parking restrictions are in place along Devonport Terrace and Avenue Road, Ovingham.

Temporary road closures are also required at times and advance notice will continue to be provided for temporary traffic diversions.

Please observe speed limits and traffic controllers when travelling through the area.

Car parking and landscaping

13 new car parking spaces will be constructed along Devonport Terrace (refer to artist impression).

Trees and native grasses will be planted along the verge adjacent to the station. The Station landscaping is expected to commence in Spring 2022.

For further information on the project landscaping, please visit ptpa.com.au/ovinghamcrossing

Bus services

The Ovingham Railway Station will remain closed until construction works are complete in late 2022. A shuttle bus service will operate between Ovingham and Dudley Park train stations.

Passengers travelling to the city and back can also continue to access the bus services on Torrens Road and Churchill Road.

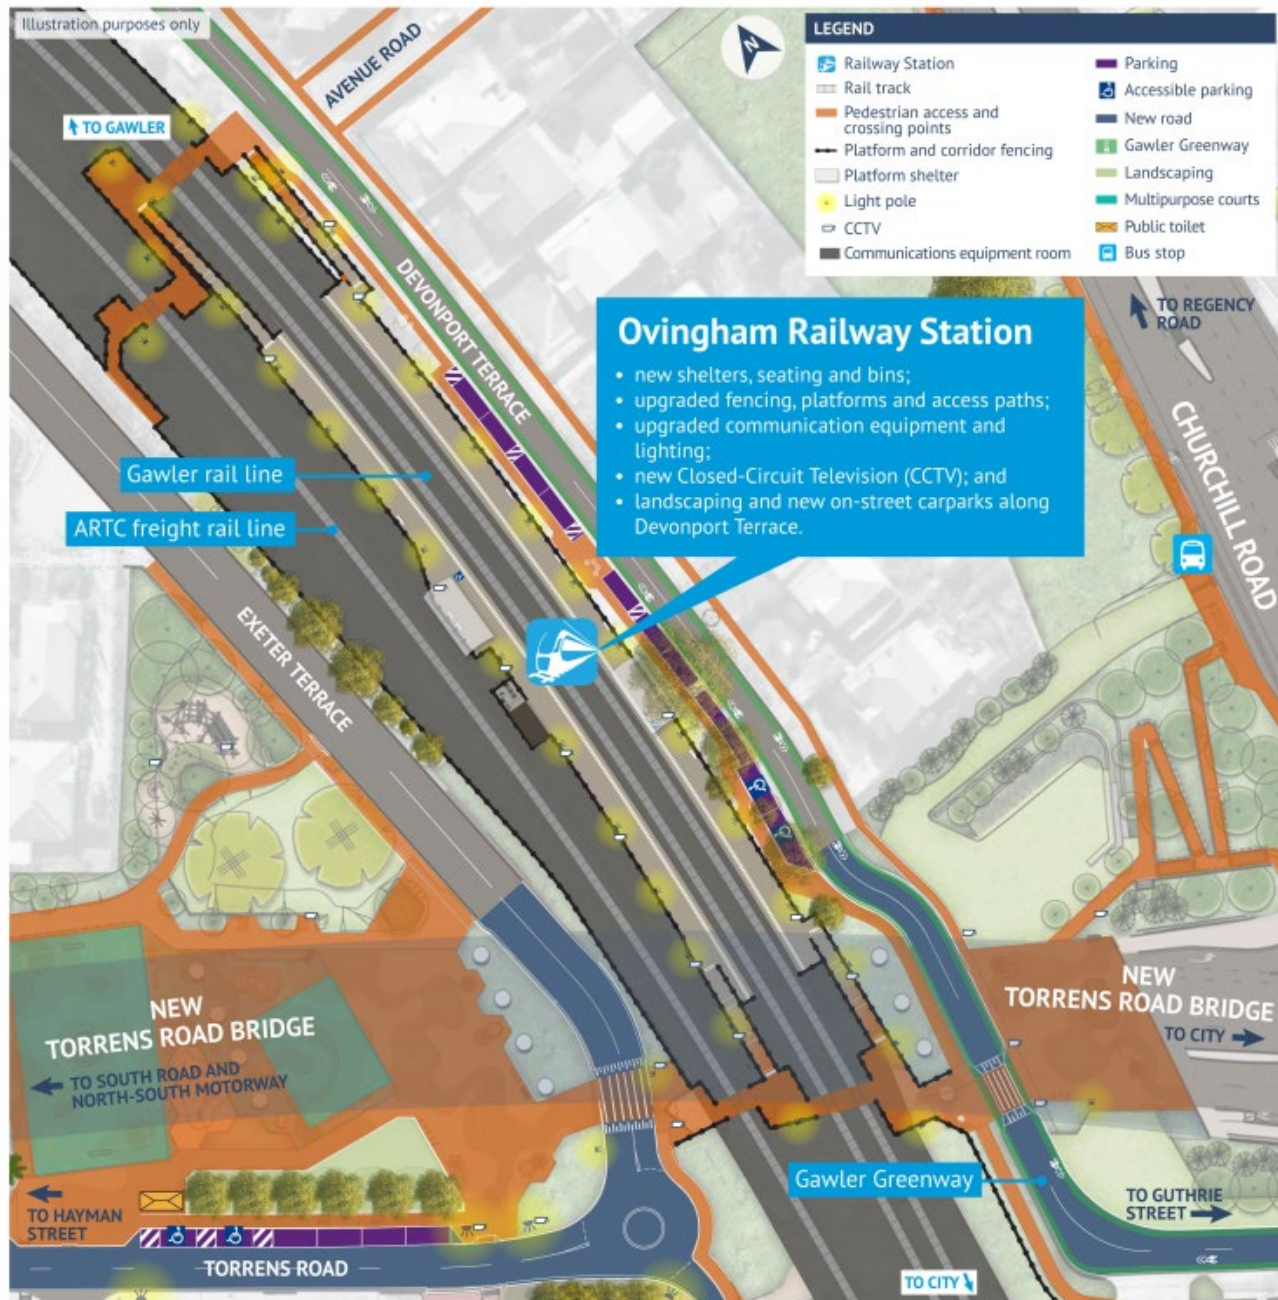

For further information

For further information regarding the Ovingham Railway Station Upgrade, please phone the PTP Alliance on 1300 613 533 or email ovinghamcrossing@ptpa.com.au
