

HSE Manager

Tattarang is one of Australia's largest private investment groups and is owned by the Forrest family. Our investment portfolio spans across agri-food, energy, resources, property, hospitality, sport and entertainment. The group is made up of six business divisions: Fiveight, Harvest Road, SFM Marine, Squadron Energy, Wyloo Metals and Z1Z. We believe in investing for growth and pursue opportunities in both the listed and unlisted space with a long-term investment horizon.

Minderoo Foundation is a modern philanthropic organisation. We take on tough, persistent issues with the potential to drive massive change. We incubate ideas and accelerate impact. We push the limits of what is believed possible. Minderoo Foundation is independent, forward thinking and seeks effective, scalable solutions. We are proudly Australian, and one of Asia's largest philanthropies, with AUD \$2 billion committed to a range of global initiatives. Our team comprises over 75 employees across seven locations.

About the role

Based in our iconic offices on the Swan River, this role delivers functional expertise as part of a joint team where business and philanthropy intersect. Reporting to the COO the role is responsible for health, safety and environmental (HSE) compliance at Tattarang and Minderoo Foundation. This will include designing and implementing programmes for all locations in Western Australia, interstate and overseas. As the HSE Manager you will provide HSE leadership, training, and operational support to all levels of the organization and across all functional groups. You will be responsible for preparing regulatory agency submissions including but not limited to EPA Tier II, SARA 313, RCRA Biennial, OSHA Logs/reports. Your role will involve working on problems of technical and legal scope requiring critical thinking and interaction with internal and external technical professionals along with individuals representing official agencies.

About you

To be successful in this role you will have 10+ year's related experience in an HSE leadership role; with a relevant Bachelor or Masters Degree. Demonstrated understanding of and ability to communicate effectively with regulatory authorities, government officials, major customers, and senior executives within the organization. Experience in taking on an HSE leadership role during the design and construction phases of facilities that have complex R&D, chemistry, microbiology, manufacturing, and packaging equipment.

Of vital importance is that you will be a solutions-oriented and self-motivated individual who will possess an abundance of positivity, initiative, and a passion for embracing our philosophy and living our values.

Next Steps

Please attach your resume and a short paragraph highlighting your relevant expertise.
