

# Your Notes for Course & Career Event on Tuesday, March 26, 6 pm to 8 pm in the Sports Centre.

---

*On the following pages you will find information about each exhibitor along with possible questions to ask them, plus a link to their website for further research.*

*Why would you need this? Many students and parents have never attended such an event, and may not know where to start. This document has starting point questions for you to discuss with each exhibitor, and there is a space for you to write down your own questions.*

*If students already have an idea of what courses they wish to follow after Year 12, then this event can answer many questions about ATAR scores required, selection information (interviews, folio), prerequisites required, bonus points for VCE subjects, course details, job outcomes, location of campus, length of course etc.*

*Or a student might not want to attend university and is keen to find out about apprenticeships, or possibly joining the Defence Force or Victoria Police Force, again, we have representatives from these organisations that can give you specific information about applying and seeking apprenticeships.*

*For those students just starting to explore, you may wish to collect brochures to read at a later stage, or ask questions about career ideas in their fields of expertise. It may be that a course interests you so you can find out what subjects you should study in your VCE and what ATAR score you need to aim towards.*

Table	Institution	Questions	Your Notes
1	<a href="#">Apprenticeship and Traineeship Employment Partners ATEP</a>	How do I find an apprenticeship? Do you have a list I can access after I finish school to see what is available? Can I sign up now? Is it important to finish Year 12? What apprenticeships are the most popular? Do I need a car licence? Do you offer business or information technology traineeships too? What are wages for apprentices?	<hr/> <hr/> <hr/> <hr/>
2	<a href="#">Australian Brick &amp; Blocklaying Training Foundation Ltd</a>	I have been told that bricklaying is very well paid. Is this true? How physical is the job? How long is the apprenticeship? Do I need to finish school? Do you help me find an apprenticeship?	<hr/> <hr/> <hr/> <hr/>
3	<a href="#">VACC Auto Apprenticeships</a>	The VACC Auto Apprenticeships team are experts in the automotive apprenticeship and school based traineeship field. The team can help launch your career as an apprentice motor mechanic, motorcycle mechanic, panel beater, spray painter and more! Ask how to apply for their apprenticeships. What are the pay rates for motor mechanics and apprentices? What other jobs are available in the automotive industry?	<hr/> <hr/> <hr/> <hr/>
4	<a href="#">Careers in the Building Industry</a>	Want to build your future with a career in building and construction? Discover the financially rewarding and fulfilling careers that our industry has on offer. How do you find a carpentry apprenticeship when you leave school? Should you finish Year 12? What is a certificate 11 in building and construction courses? How long does it go for? Does it take time off my apprenticeship? Is the building industry still strong for future employment? What other jobs and apprenticeships are there in the building industry?	<hr/> <hr/> <hr/> <hr/>
5	<a href="#">Plumbing Careers</a>	Plumbers install, maintain and repair pipes, drains, guttering and metal roofing, mechanical services and related equipment for water supply, gas, drainage, sewerage, heating, cooling and ventilation systems. The number of Plumbers grew strongly over the past 5 years and is expected to grow strongly over the next 5 years: from 92,300 in 2018 to 102,800 by 2023. Ask what a typical day as a plumber would be like? What is roof plumbing? Do you have to have a licence to be a plumber? What type of person do you think employers are looking for in future apprentices? Is plumbing well paid?	<hr/> <hr/> <hr/> <hr/>
	<a href="#">Electrical Careers</a>	Electricians install, maintain, repair, test and commission electrical and electronic equipment and systems for industrial, commercial and domestic purposes. Electricians may also work on electrical transmission and distribution equipment. Do you need to be good at maths to pass the tests to become a licenced electrician? What are the pay rates for electricians? What other work do they do and who might employ apprentices?	<hr/> <hr/> <hr/> <hr/>

7	<a href="#">ATO</a>	How do I obtain a Tax File Number? Why do I need it? Can you tell me some of the careers available in the ATO. When I go to enrol at university, do I need to have a Tax File Number? Why? How long does it take to get one? How do I do this?	<hr/> <hr/> <hr/> <hr/>
8	<a href="#">Engineers Australia - Victoria Division</a>	Ask about the career options available to engineers and the industries that depend on them. Find out about different engineering roles and how engineers may help the world in decades to come. What is the fastest growth area of engineering? What are the job prospects for aeronautical engineers? Why do you need to study so much maths? Are there engineering graduates working overseas and in what areas? What university would you recommend? Can you find employment if you study engineering at TAFE level? What engineering field would you say has the highest employment rate and which one has the lowest? Is engineering, in general, a well-paid job? In your opinion, what type of student might be attracted to engineering?	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>
9	<a href="#">Carlton College of Sport</a>	Are you ambitious and eager to make your mark in the world of sport?
