

Smarter, Safer, More Productive Mining Operations

An all-in-one software platform built for mining and engineering companies.

The Challenge

- Remote worksites with poor connectivity.
- Complex contractor and workforce management.
- Stricter safety and compliance requirements.
- Rising labour and operational costs

The Solution

Our all-in-one software platform brings everything together in a single, easy-to-use system:

- **Customisable** – tailored to your process, and compliance needs.
- **Connected**– works online and offline, keeping crews in sync anywhere.
- **Centralised**– manage contractors, rostering, timesheets, safety, and reporting in one place

TOKN

“

We want to be really connected to our mobile workforce, to keep them operating safely and make our business more productive. TOKN provides technology that helps us achieve that.

”

General Manager - Mader Group

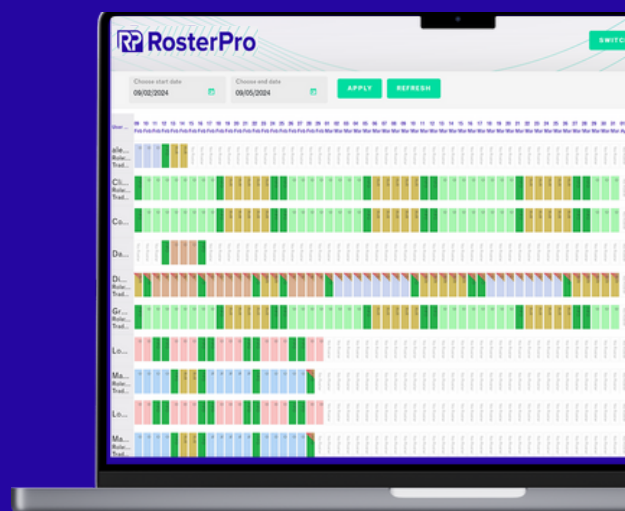

Revolutionise your operations with a single platform designed for mining and engineering.

Features Include

- Digital Time sheeting
- Field Service
- Safety and compliance
- Onboarding and Competency management
- Rostering
- Communications and engagement

Why TOKN

- **Save Time & Reduce Costs** - One cloud service, Automated workflows, fewer spreadsheets, less admin.
- **Boost Productivity** - Keep teams aligned with real-time updates, task tracking, and smarter rostering.
- **Improve Safety & Compliance** - Digital safety checks, incident reporting, and compliance tracking, ensuring safer work environments.
- **Flexible & Scalable** - Grows with your business, adapts to your specific processes, and integrates with existing systems.
