

Infusion Center Fairview (ICF)

COVID-19 Monoclonal Antibody Infusion Center

The California Medical Assistance Team (Cal-MAT) is providing free monoclonal antibody therapy (either bamlanivimab or the combination casirivimab+imdevimab) to adults with mild-to-moderate COVID-19 who meet criteria under the FDA's Emergency Use Authorization.

Patients must meet all four of the following criteria:

- ☐ 1 - Positive SARS-CoV-2 test result
- ☐ 2 - SpO₂ > 90%
- ☐ 3 - Symptoms that started within the last ten days
- ☐ 4 - At least one of the following risk factors for severe disease
 - ☐ Body Mass Index (BMI) ≥ 35
 - ☐ Chronic kidney disease
 - ☐ Diabetes mellitus
 - ☐ Immunosuppressive disease
 - ☐ Receiving immunosuppressive treatment
 - ☐ Age ≥ 65 years of age
 - ☐ Age ≥ 55 years of age AND one of the following
 - Cardiovascular disease, OR
 - Hypertension, OR
 - COPD/other chronic respiratory disease

Treatment is indicated to decrease the risk of developing severe disease that would require hospitalization. Patients will be screened according to the above criteria and those confirmed eligible will be offered outpatient infusion of either bamlanivimab or casirivimab+imdevimab.

Please refer eligible adults by calling the number below. Appointments will be scheduled the same day or the following day.

Choose one: ____ Bamlanivimab ____ Casirivimab+Imdevimab
