

Enable Auto-Answer on Patient iPad

All steps will be done on the **Patient iPad**

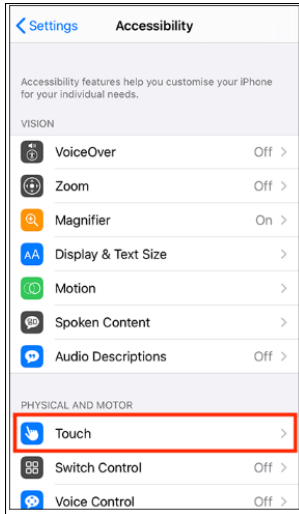

1. Open the **Settings** app

2. Click **Accessibility**

3. On the Accessibility screen, select **Touch**

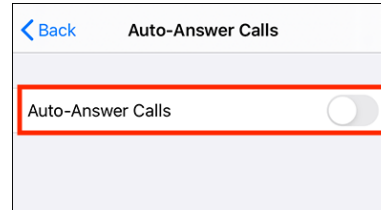

4. On the Touch screen, scroll to the bottom and select **Call Audio Routing**.

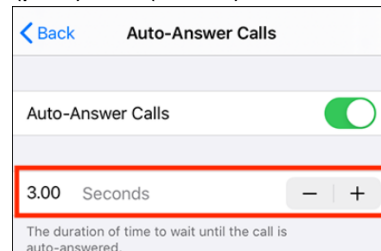

5. On the Touch screen, scroll to the bottom and select **Call Audio Routing**.

6. On the next screen, select **Auto-Answer Calls** to set the toggle switch to **On**.

7. You can now set the time limit after which calls are automatically answered - the default is 3 seconds. To adjust the time limit, tap on the + (plus) or - (minus) buttons.

8. Press the home button to return to the home screen.
