

# TCS Solutions and Offerings.

1

## **TCS Connected Wellness Solution**

TCS Connected Wellness Solution offers enterprises a single platform to deliver pre care, point of care, and post care to different types of consumers. A Multilayered systems for proactive, real-time patient engagement.

3

## **TCS Fog Computing Platform**

Real-time remote patient monitoring and critical care management for focused preventive care.

4

## **TCS Data Integrator**

TCS Data Integrator is a comprehensive solution that securely transforms data, and exchange across the healthcare value chain.

2

## **TCS Healthcare Enrollment Platform**

Making enrollment simple, accurate, and efficient.

7

## **Healthcare Professional Engagement Solution**

TCS' HCP Engagement Platform is an online, self-detailing solution that allows HCPs to access medical information, product detailing and latest research updates.

8

## **Health and Personal Accident Insurance**

The Health solution from TCS BaNCS for Insurance, powered by APIs and delivered on the cloud, is a complete solution suite, supporting a range of products.

5

## **TCS User Engagement Platform for Health Professionals and Payers**

TCS' User Engagement Platform, based on the 'mobile first' principle, enables 'patient centric' care in specific ways.

6

## **Enrollment 360 Digitized Solution**

Reduce Quote-to-Card cycle time, lower operating costs, and ensure regulatory compliance.
